GOVERNING POLICIES AND PROCEDURES
SECTION: V. FINANCIAL AFFAIRS
SUBSECTION: E. Gifts and Affiliated Foundations

June 2019

1. Purpose of the Policy

- a. The Board recognizes the importance of voluntary private support and encourages grants and contributions for the benefit of the institutions and agencies under its governance. Private support for public education is an accepted and firmly established practice throughout the United States. Tax-exempt foundations are one means of providing this valuable support to help the institutions and agencies under the Board's governance raise money through private contributions. Foundations are separate, legal entities, tax-exempt under Section 501(c) of the United States Internal Revenue Code of 1986, as amended, associated with the institutions and agencies under the Board's governance. Foundations are established for the purpose of raising, receiving, holding, and/or using funds from the private sector for charitable, scientific, cultural, educational, athletic, or related endeavors that support, enrich, and improve the institutions or agencies. The Board wishes to encourage a broad base of support from many sources, particularly increased levels of voluntary support. To achieve this goal, the Board will cooperate in every way possible with the work and mission of recognized affiliated foundations
- b. The Board recognizes that foundations:
 - i. Provide an opportunity for private individuals and organizations to contribute to the institutions and agencies under the Board's governance with the assurance that the benefits of their gifts supplement, not supplant, state appropriations to the institutions and agencies;
 - ii. Provide assurance to donors that their contributions will be received, distributed, and utilized as requested for specified purposes, to the extent legally permissible, and that donor records will be kept confidential to the extent requested by the donor and as allowed by law;
 - iii. Provide an instrument through which alumni and community leaders can help strengthen the institutions and agencies through participation in the solicitation, management, and distribution of private gifts; and
 - iv. Aid and assist the Board in attaining its approved educational, research, public service, student loan and financial assistance, alumni relations, and financial development program objectives.
- c. The Board, aware of the value of tax-exempt foundations to the well being of the institutions and agencies under the Board's governance, adopts this policy with the following objectives:

- i. To preserve and encourage the operation of recognized foundations associated with the institutions and agencies under the Board's governance; and
 - ii. To ensure that the institutions and agencies under the Board's governance work with their respective affiliated foundations to make certain that business is conducted responsibly and according to applicable laws, rules, regulations, and policies, and that such foundations fulfill their obligations to contributors, to those who benefit from their programs, and to the general public.
2. Institutional Foundations
- a. General Provisions Applicable to all Affiliated Foundations
 - i. All private support of an institution not provided directly to such institution shall be through a Board approved affiliated foundation. While an institution may accept gifts made directly to the institution or directly to the Board, absent unique circumstances making a direct gift to the institution more appropriate, donors shall be requested to make gifts to the Board approved affiliated foundations.
 - ii. Each affiliated foundation shall operate as an Idaho nonprofit corporation that is legally separate from the institution and is recognized as a 501(c)(3) public charity by the Internal Revenue Service. The management and control of a foundation shall rest with its governing board. All correspondence, solicitations, activities, and advertisements concerning a particular foundation shall be clearly discernible as from that foundation, and not the institution.
 - iii. The institutions and foundations are independent entities and neither will be liable for any of the other's contracts, torts, or other acts or omissions, or those of the other's trustees, directors, officers, members, or staff.
 - iv. It is the responsibility of the foundation to support the institution at all times in a cooperative, ethical, and collaborative manner; to engage in activities in support of the institution; and, where appropriate, to assist in securing resources, to administer assets and property in accordance with donor intent, and to manage its assets and resources.
 - v. Foundation funds shall be kept separate from institution funds. No institutional funds, assets, or liabilities may be transferred directly or indirectly to a foundation without the prior approval of the Board except as provided herein. Funds may be transferred from an institution to a foundation without prior Board approval when:

- 1) A donor inadvertently directs a contribution to an institution that is intended for the foundation. If an affiliated foundation is the intended recipient of funds made payable to the Board or to an institution, then such funds may be deposited with or transferred to the affiliated foundation, provided that accompanying documents demonstrate that the foundation is the intended recipient. Otherwise, the funds shall be deposited in an institutional account, and Board approval will be required prior to transfer to an affiliated foundation; or
 - 2) The institution has gift funds that were transferred from and originated in an affiliated foundation, and the institution wishes to return a portion of funds to the foundation for reinvestment consistent with the original intent of the gift.
 - 3) The transfer is of a *de minimis* amount not to exceed \$10,000 from the Institution to the Foundation and the transferred funds are for investment by the Foundation for scholarship or other general Institution/Agency support purposes.
 - 4) The transfer is of funds raised by the institution for scholarship or program support and the funds are deposited with the affiliated foundation for investment and distribution in accordance with the purpose for which the funds were raised.
- vi. Transactions between an institution and an affiliated foundation shall meet the normal tests for ordinary business transactions, including proper documentation and approvals. Special attention shall be given to avoiding direct or indirect conflicts of interest between the institution and the affiliated foundation and those with whom the foundation does business. Under no circumstances shall an institution employee represent both the institution and foundation in any negotiation, sign for both the institution and foundation in a particular transaction, or direct any other institution employee under their immediate supervision to sign for the related party in a transaction between the institution and the foundation.
 - vii. Prior to the start of each fiscal year, an affiliated foundation must provide the institution chief executive officer with the foundation's proposed annual budget, as approved by the foundation's governing board.
 - viii. Each foundation shall conduct its fiscal operations to conform to the institution's fiscal year. Each foundation shall prepare its annual financial statements in accordance with Government Accounting Standards Board (GASB) or Financial Accounting Standards Board (FASB) principles, as appropriate.

- ix. Institution chief executive officers shall be invited to attend all meetings of an affiliated foundation's governing board in an advisory role. On a case by case basis, other institution employees may also serve as advisors to an affiliated foundation's governing board, as described in the written foundation operating agreement approved by the Board.
- x. Although foundations are private entities and are not subject to the Idaho Public Records Law, foundations, while protecting personal and private information related to private individuals, are encouraged, to the extent reasonable, to be open to public inquiries related to revenue, expenditure policies, investment performance and/or similar non-personal and non-confidential financial or policy information.
- xi. A foundation's enabling documents (e.g., articles of incorporation and bylaws) and any amendments are to be provided to the institution. These documents must include a clause requiring that in the event of the dissolution of a foundation, its assets and records will be distributed to the Board or the affiliated institution. To the extent practicable, the foundation shall provide the institution with an advance copy of any proposed amendments, additions, or deletions to its articles of incorporation or bylaws. The institution shall be responsible for providing all of the foregoing documents to the Board.
- xii. Foundations may not engage in activities that conflict with federal or state laws, rules and regulations; or cause an institution to be in violation of Board policy; or the role and mission of the institutions. Foundations shall comply with applicable Internal Revenue Code provisions and regulations and all other applicable policies and guidelines.
- xiii. Fund-raising campaigns and solicitations of major gifts for the benefit of an institution by its affiliated foundation shall be developed cooperatively between the institution and its affiliated foundation. Before accepting contributions or grants for restricted or designated purposes that may require administration or direct expenditure by an institution, a foundation will obtain the prior approval of the institution chief executive officer or a designee.
- xiv. Foundations shall obtain prior approval in writing from the institution chief executive officer or a designee if gifts, grants, or contracts include a financial or contractual obligation binding upon the institution.
- xv. Foundations shall make clear to prospective donors that:
 - 1) The foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the institution; and

2) Responsibility for the governance of the foundation, including investment of gifts and endowments, resides in the foundation's governing board.

xvi. Institutions shall ensure that foundation controlled resources are not used to acquire or develop real estate or to build facilities for the institution's use without prior Board approval. The institution shall notify the Board, at the earliest possible date, of any proposed purchase of real estate for such purposes, and in such event should ensure that the foundation coordinates its efforts with those of the institution. Such notification to the Board may be through the institution's chief executive officer in executive session pursuant to Idaho Code, Section 74-206(1)(c).

b. Foundation Operating Agreements

Each institution shall enter into a written operating agreement with each of its affiliated foundations that ensures compliance with this Policy.

Board approval of affiliated foundation operating agreements is required if an affiliated foundation will receive donations, membership dues, gifts or other funds (collectively "funds") and delivers those funds directly to the institution. If an affiliated foundation will not receive or maintain funds, or if it routes all funds received to the institution through another Board-approved affiliated foundation, Board approval of the operating agreement is not required. In such cases, the institution shall ensure that services provided by a Board approved affiliated foundation to another affiliated foundation are provided pursuant to a service agreement between the affiliated foundations which complies with Board policy, a copy of which is available to the institution and to the Board.

Operating agreements must be signed by the chairman or president of the foundation's governing board, and by the institution chief executive officer. Operating agreements requiring Board approval must be approved by the Board prior to execution and must be re-submitted to the Board for re-approval every three (3) years, or as otherwise requested by the Board. Operating agreements shall follow the operating agreement template approved by the Board and found at <http://boardofed.idaho.gov/>. When an operating agreement is presented to the Board for review, an institution must include a redline to the Board's operating agreement template, as well as a redline to the previously Board approved version of the operating agreement, if there is one.

Foundation operating agreements shall establish the operating relationship between the parties, and shall, at a minimum, address the following topics:

When it is determined that best practices call for an institution employee to serve in a capacity that serves both the institution and an affiliated foundation, then the operating agreement must clearly define the authority and responsibilities of this position within the foundation. Notwithstanding, no employee of an institution who functions in a key administrative or policy making capacity (including, but not limited to, any institution vice-president or equivalent position) shall be permitted to have responsibility or authority for foundation policy making, financial oversight, spending authority, investment decisions, or the supervision of foundation employees. The responsibility of this position within the foundation that is performed by an institution employee in a key administrative or policy making capacity shall be limited to the coordination of institution and affiliated foundation fundraising efforts, and the provision of administrative support to foundation fundraising activities.

 - 3) Whether the foundation will be permitted to use any of the institution's facilities and/or equipment, and if so, the details of such arrangements.
 - 4) Whether the institution intends to recover its costs incurred for personnel, use of facilities or equipment, or other services provided to the foundation. If so, then payments for such costs shall be made directly to the institution.

ii. Management and Operation of Foundations.

- 1) Guidelines for receiving, depositing, disbursing and accounting for all funds, assets, or liabilities of a foundation, including any disbursements/transfers of funds to an institution from an affiliated foundation. Institution officials into whose department or program foundation funds are transferred shall be informed by the foundation of the restrictions, if any, on such funds and shall be responsible both to account for them in accordance with institution policies and procedures, and to notify the foundation on a timely basis regarding the use of such funds.
- 2) Procedures with respect to foundation expenditures and financial transactions, which must ensure that no person with signature authority shall be an institution employee in a key administrative or policy making capacity (including, but not limited to, an institution vice-president or equivalent position).

operating budget and capital expenditure plan prior to approval by the foundation's governing board.

- 3) Whether, and how, supplemental compensation from the foundation may be made to institutional employees. Any such payments must have prior Board approval, and shall be paid by the foundations to the institutions, which in turn will make payments to the employee in accordance with normal practice. Employees shall not receive any payments or other benefits directly from the foundations.

iv. Audits and Reporting Requirements.

- 1) The procedure foundations will utilize for ensuring that regular audits are conducted and reported to the Board. Unless provided for otherwise in the written operating agreement, such audits must be conducted by an independent certified public accountant, who is not a director or officer of the foundation. The independent audit shall be a full scope audit, performed in accordance with generally accepted auditing standards.
- 2) The procedure foundations will use for reporting to the institution chief executive officer the following items:
 - a) Regular financial audit report;
 - b) Annual report of transfers made to the institution, summarized by department;
 - c) Annual report of unrestricted funds received, and of unrestricted funds available for use in that fiscal year;
 - d) A list of foundation officers, directors, and employees;
 - e) A list of institution employees for whom the foundation made payments to the institution for supplemental compensation or any other approved purpose during the fiscal year, and the amount and nature of that payment;
 - f) A list of all state and federal contracts and grants managed by the foundation; and
 - g) An annual report of the foundation's major activities;

- h) An annual report of each real estate purchase or material capital lease, investment, or financing arrangement entered into during the preceding foundation fiscal year for the benefit of the institution; and
- i) An annual report of any actual litigation involving the foundation during its fiscal year, as well as legal counsel used by the foundation for any purpose during such year. This report should also discuss any potential or threatened litigation involving the foundation.

v. Conflict of Interest and Code of Ethics and Conduct.

A description of the foundation's conflict of interest policy approved by the foundation's governing board and applicable to all foundation directors, officers, and staff members, and which shall also include a code of ethics and conduct. Such policy must assure that transactions involving the foundation and the personal or business affairs of a trustee, director, officer, or staff member should be approved in advance by the foundation's governing board. In addition, such policy must provide that directors, officers, and staff members of a foundation disqualify themselves from making, participating, or influencing a decision in which they have or would have a financial interest. Finally, such policy must assure that no director, trustee, officer, or staff member of a foundation shall accept from any source any material gift or gratuity in excess of fifty dollars (\$50.00) that is offered, or reasonably appears to be offered, because of the position held with the foundation; nor should an offer of a prohibited gift or gratuity be extended by such an individual on a similar basis.

vi. Affiliated Research Foundations and Technology Transfer Organization for Institutions of Higher Education

The Board wishes to encourage research and technology transfer and the corresponding economic development potential for the state of Idaho. The Board acknowledges that independent, affiliated foundations operating to support an institution's research and technology transfer efforts can be useful tools to provide institutions with avenues for engagement with the private sector as well as with public and private entities interested in funding research, funding technology transfer and promoting spin-off enterprises arising from institutional intellectual property and technology. Such affiliated foundations should operate substantially within the framework for affiliated foundations set out in paragraph 1 and 2 of this policy, with such variances as are reasonable based on the nature of the anticipated function of the specific foundation.

- 1) The institutions under the Board's governance may affiliate with non-profit entities which generally meet the criteria set forth in paragraph 2.b. of this

policy and which operate for the purpose of supporting the research and technology transfer efforts of one or more of the institutions.

- 2) Research and Technology Transfer Foundation Operating Agreements. The requirement of a foundation operating agreement under paragraph 2.c. of this policy shall also apply to foundations supporting research and technology transfer. Institutions proposing to affiliate with a particular foundation may propose reasonable variances from specific requirements under paragraph 2.c. based upon the anticipated function of the foundation, provided that any such variances are specifically identified by the institution in materials presented to the Board when requesting approval of the foundation.

3. Foundations for Other Agencies

Other agencies under the Board's jurisdiction may establish foundations to accept gifts made for the benefit of the agencies' operating purposes. These agencies are subject to the same policies as the institutional foundations. However, agency foundations with annual revenues less than \$100,000 are not required to obtain an independent audit. These agencies must instead submit an annual report to the Board of gifts received and the disposition of such gifts.

4. Idaho Public Television Foundation

- a. Foundations that exist for the benefit of Idaho Public Television (IPTV) are required by Federal Communications Commission (FCC) regulations to have specific spending authority designated by the Board. Audits of the IPTV Foundation will be conducted by the State Legislative Auditor.
- b. By action of the Board, the Friends of Idaho Public Television, Inc., has been designated to accept gifts made for the benefit of public television in the state of Idaho. The Foundation will conduct its activities in a manner consistent with the Federal Communications Commission (FCC) regulations and the FCC license held by the Board.

5. Acceptance of Direct Gifts

Notwithstanding the Board's desire to encourage the solicitation and acceptance of gifts through affiliated foundations, the Board may accept donations of gifts, legacies, and devises (hereinafter "gifts") of real and personal property on behalf of the state of Idaho that are made directly to the Board or to an institution or agency under its governance. Gifts worth more than \$250,000 must be reported to and approved by the executive director of the Board before such gift may be expended or otherwise used by the institution or agency. Gifts worth more than \$500,000 must be approved

by the Board. The chief executive officer of any institution or agency is authorized to receive, on behalf of the Board, gifts that do not require prior approval by the executive director or the Board and that are of a routine nature. This provision does not apply to transfers of gifts to an institution or agency from an affiliated foundation (such transfers shall be in accordance with the written operating agreement between the institution or agency and an affiliated foundation, as described more fully herein).

All corporate powers shall be exercised by or under authority of, and the business and affairs of the Foundation shall be managed under the direction of, the Board except as may be otherwise provided in the Idaho Nonprofit Corporation Act (the “Act”) or the Articles of Incorporation (the “Articles”). If any such provision is made in the Articles, the powers and duties conferred or imposed upon the Board by the Act shall be exercised or performed to such extent and by such person or persons as shall be provided in the Articles.

A Director shall perform such Director's duties as a Director, including such Director's duties as a member of any committee of the Board upon which such Director may serve, in good faith, in a manner such Director reasonably believes to be in the best interests of the Foundation, and with such care as an ordinarily prudent person in a like position would use under similar circumstances. In performing such Director's duties, a Director shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, in each case prepared or presented by:

- a. One (1) or more officers or employees of the Foundation whom the director reasonably believes to be reliable and competent in the matters presented;

- b. Counsel, public accountants, or other persons as to matters which the director reasonably believes to be within such person's professional or expert competence; or
- c. A committee of the Board upon which such director does not serve, duly designated in accordance with a provision of these Bylaws, as to matters within its designated authority, which committee the director reasonably believes to merit confidence, but such director shall not be considered to be acting in good faith if such director has knowledge concerning the matter in question that would cause such reliance to be unwarranted. A person who so performs such duties shall have no liability by reason of being or having been a director of the Foundation.

Section 3.02 Composition and Term

There shall be a Board of Directors of the Foundation consisting of no more than twenty-five (25) voting directors. Directors shall be elected by the Board for a term of three (3) years and shall not serve more than three (3) consecutive terms, unless elected Board Past Chair (“PCoB”), Chair (“COB”) or Vice Chair (“VC”) of the Foundation. After the maximum of three (3) terms on the Board, an outgoing director shall automatically move into Emeritus Director status and may be re-elected to the Board after a term of absence from the Board of at least one (1) year.

The Board of Directors, by a majority vote, shall be authorized to designate a limited number of its members as Lifetime Board members. - a. Any Board action to remove a director shall require no less than seven (7) days written notice to each director that the matter will be voted on at a Board meeting. Such notice shall also include the time and place of such meeting.
- b. A director may, at any time before, during or after a Board meeting, waive any notice required by law, the Articles, or these Bylaws. The waiver must be in writing, signed by the director entitled to the notice, and filed with the minutes or Foundation records.

A director's attendance at or participation in a meeting waives any required notice of the meeting unless the director, upon arriving at the meeting or prior to the vote on a matter not noticed in conformity with law, the Articles, or these Bylaws objects to lack of notice and does not thereafter vote for or assent to the objected action.

- c. A majority of the voting membership of the Board shall constitute a quorum at any meeting and, unless otherwise provided by law or by the Articles, action of the Board shall be controlled by majority action of the voting directors present at any meeting at which a quorum is present.

Section 3.09 Removal of Directors

- a. Removal for Cause. Any director may be removed from office for cause by a two-thirds (2/3) majority vote of the total directors then in office.
- b. Removal for Unexcused Absences. A director may be removed from office after two (2) unexcused absences of any Board meeting within any twelve-month period, provided that a majority of the total directors then in office vote for such removal.

Section 3.10 Informal Action

Any action required to be taken at a meeting of the Board of directors may be taken without a meeting, if all the members of the Board consent in writing to that action. Such action by written consent shall have the same force and effect as a unanimous vote of the Board. Such written consent or consents shall be filed with the minutes of the proceedings of the Board.

PURPOSE

This Investment Policy Statement (IPS) sets forth the standards and guidelines governing the investment and management of the Foundation’s financial assets in compliance with donor restrictions, the Foundation’s governing policies and procedures, and state and federal laws and regulations including, but not limited to, the Uniform Prudent Investors Act and the Uniform Management of Institutional Funds Act.

This document defines the responsibilities of the Foundation Board of Directors (Board), the Investment Committee (Committee), and any other parties involved in managing the Foundation’s investments. It identifies or provides permissible investments, target asset allocations, and diversification requirements.

The Committee has arrived at this IPS through careful study of the returns and risks associated with various investment strategies, the current and projected financial obligations of the Foundation and growth goals after consulting with an outside OCIO (as defined below) as it deemed appropriate. This IPS has been chosen as the most appropriate policy for documenting the financial objectives of the Foundation, which are described in the “Statement of Objectives” section of this document; however, the Committee shall be free to deviate from this IPS when it concludes that it is prudent and in the interest of the Foundation to do so and may amend the IPS at any time. The Committee has full discretionary authority for and is entitled to deference in its interpretation of this IPS.

The Committee has adopted a long-term investment horizon such that the chances and duration of investment losses are carefully weighed against the long-term potential for appreciation of assets.

It is not expected that the IPS will change frequently.

Fiduciary Duty

The assets of the Foundation will be invested in accordance with all applicable laws. The Committee will perform its duties in a manner consistent with fiduciary standards. Specifically:

- Duty of care
- Duty of loyalty
- Duty of obedience
- Duty to diversify investments

Conflict of Interest

If any member of the Committee has, or appears to have, a conflict of interest that impairs or appears to impair the respective individual’s ability to exercise independent and unbiased judgment in the good faith discharge of his or her duties, he or she shall disclose such conflicts and may be required to refrain from participating in specific decisions.

DUTIES AND RESPONSIBILITIES

The Committee is responsible for managing the investment process in a prudent manner. In carrying out these duties, the Committee has retained an OCIO, as further discussed below, to assist in managing the assets of the Foundation as set forth in an Investment Management Agreement (the “IMA”). The OCIO’s role is set forth in the IMA and may include the provision of guidance to the Committee on matters pertaining to the investment of Foundation assets including the creation of the IPS, investment selection, monitoring of performance and compliance with the IPS. All decisions pertaining to the IPS and guidelines for its implementation will be made by the Committee. The OCIO has been engaged to have authority and responsibility to select appropriate investments in the specific asset classes mandated by this IPS, in accordance with (and subject to) the terms of the IMA.

Board of Directors

The Board has the ultimate fiduciary responsibility for the prudent and effective investment of the assets of the Foundation. The Board has delegated responsibility for the investment management process to the Committee as indicated in Policy Section 5.04 of the Foundation’s Policy Manual (Investments), with the requirement the Committee update the Board annually on investment activities and performance. The Board sets the annual spending policy after receiving input from the Committee.

Investment Committee

The Committee shall perform the functions of an investment fiduciary responsible for the prudent management of the Foundation’s investments. The Committee has the authority to establish all investment policy statements for the Foundation’s investments, as delegated by the Board in Policy Section 5 – Investments and Policy Section 9.05 – Investment Committee.

A Committee member shall act in good faith with the care an ordinarily prudent person in a like position would exercise under similar circumstances and in a manner the member reasonably believes to be in the best interests of the Foundation. In discharging Committee duties, a Committee member shall be entitled to rely on information, opinions, reports or statements, including financial statements and other financial data, if prepared or presented by the Foundation officers or employees whom the member reasonably believes are reliable and competent in the matters presented, including from legal counsel, investment consultants, OCIOs, advisors, public accountants or other persons as to matters the member reasonably believes are within the person’s professional or expert competence or a committee of the Board of which the committee member is not a member if the member reasonably believes the committee merits confidence.

A member who meets the foregoing standards shall be presumed to have discharged his or her duties as a Committee member.

Outsourced Chief Investment Officer (OCIO)

The Committee may retain an OCIO to assist the Committee in establishing the IPS, including guidelines contained therein.

In accordance with the terms of the IMA, the OCIO may be responsible for managing the asset allocation, determining investment strategy, implementing through permissible investment vehicles, including rebalancing where appropriate. The OCIO may also be responsible for monitoring asset allocation across and among asset classes and provide timely reporting to the Committee. The specific responsibilities of the OCIO are listed in Policy Section 9.05.03.

Custodian

The Custodian(s) has possession of securities for safekeeping, for settlement of trades, and for the collection of income. In addition, the Custodian(s) is responsible for processing all cash flows and providing comprehensive monthly statements.

STATEMENT OF OBJECTIVES

Spending Policy - The spending policy is set by the Board to:

- Support the Foundation's mission
- Safeguard the funds for future generations
- Enable the maximum amount of spending that can be maintained over the long term
- Ensure spending is financially sustainable
- Ensure the stated wishes of donors are honored
- Support annual operating expenses of the Foundation

It is the current policy of the Foundation to annually distribute up to 4.0% of the average market value of the Endowment Pool and other Investment Earnings, as defined in the Spending Policy, over a rolling 12 quarter (three year) period. It shall be the responsibility of the Board to periodically review the spending policy against actual returns, with relevant input from the Committee and OCIO, to make any necessary adjustments.

INVESTMENT CATEGORIES

This IPS governs the investment of distinct groups of funds: the endowment account, the enhanced liquidity account, the split-interest account, the holding account, and miscellaneous other investments. Because each group of investments has a different objective, this document addresses them separately.

The Foundation's primary investment objective is to support the mission and operations of Idaho State University and to preserve and protect Foundation assets by earning a total return for each category of assets which is appropriate for each category's time horizon, distribution requirements, and risk tolerance.

ENDOWMENT ACCOUNT

Objectives

The primary objective is to preserve and augment the long-term purchasing power of the investments after withdrawals are taken. A secondary objective is to provide a continuing and stable funding source to support Board-directed spending to support the current and future mission of the Foundation. The objectives for the endowment account have been established in conjunction with a comprehensive review of the current and projected requirements.

With its endowment management practices, the Foundation seeks to:

1. Support and augment Idaho State University's programs by responsible stewardship of the money donated to the endowment funds and for Board-directed spending.
2. Promote growth of the endowment to realize the greatest return on the endowment assets. Growth is expected to occur through positive net returns, building reserves and attracting new donors because of responsible management of the assets.

3. Achieve on average, over a full market cycle, the hurdle rate (net of investment management fees) or higher as it relates to annualized endowment performance. The hurdle rate is the aggregate of:
 - Spending rate (currently 4%)
 - Administrative fee (currently 1.5%)
 - Inflation rate (CPI; variable; approximately 2.5%)
4. Exceed, over a full market cycle, the average return (net of investment management fees) of appropriate indexes weighted by asset allocation target percentages. This total portfolio benchmark is viewable on the monthly performance statement for the endowment provided by the OCIO; this benchmark can change throughout time as the asset mix changes.
5. Exceed, over a full market cycle, appropriate index returns in each asset class.

Due to the nature of the financial markets, there can be no assurance these objectives will be met. The Committee also realizes and agrees that historical performance is no guarantee of future performance.

Asset Allocation Targets

The asset allocation will likely be the key determinant of the Foundation's returns over the long-term. Therefore, the Foundation will be diversified across multiple markets that are not similarly affected by economic, political, or social developments. A globally diversified portfolio with uncorrelated returns from various assets should reduce the variability of returns across time.

Because of the importance of asset allocation in meeting the Foundation's long-term return objectives, it will be reviewed at least annually by the Committee. The long-term target asset allocation for the Foundation is expressed in the IMA.

	<u>Minimum %</u>	<u>Target %</u>	<u>Maximum %</u>
Growth Strategies	75%	80%	90%
Risk Reduction Strategies	5%	10%	15%
Inflation Protection Strategies	5%	10%	15%

Within each asset class, assets will be invested in accordance with the guidelines set out below.

Strategy Descriptions

Growth Strategies: Investments that seek to provide equity-like, long-term capital appreciation while potentially recognizing substantial fluctuations in year-to-year performance. Examples include equities, higher yielding fixed income instruments, private equity, long biased hedge funds and opportunistic strategies. Certain Growth Strategies also feature Risk Reduction characteristics (High Yield, Emerging Markets Debt) or Inflation Protection characteristics (Private Assets, Real Estate)

Risk Reduction Strategies: Investments that seek to provide stability and reduce volatility. Examples include fixed income and non-directional hedge funds.

Inflation Protection Strategies: Investments that seek to provide a diversified inflation hedge and yield. Examples include public and private real asset and real estate strategies as well as Treasury Inflation-Protected Securities (“TIPS”).

Cash Equivalent Reserves: The Foundation may temporarily hold cash in anticipation of upcoming transaction activity.

In accordance with the terms of the IMA, the OCIO may be delegated the discretion with respect to the investments utilized by the OCIO to implement the Portfolio’s strategy.

Adherence to Policy Targets and Rebalancing

The asset allocation established by this Investment Policy Statement represents a long-term perspective. As such, rapid unanticipated market shifts or changes in economic conditions may cause the asset mix to fall outside of the policy range. These divergences should be of a short-term nature.

To ensure divergence from the target policy is within acceptable limits, rebalancing of assets may be necessary. Rebalancing procedures are authorized in accordance with the IMA and implemented by the Investment Manager.

Investment Securities, Strategies and Diversification

As described in the IMA, the OCIO implements the asset allocation through pooled investment vehicles, including mutual fund products, separately managed accounts, and/or other alternative fund products. Consistent with the desire for adequate diversification, this Investment Policy Statement assumes the volatility of the combined equity investment will be similar or less than that of the market opportunity available to institutional investors with similar return objectives or risk appetite. The volatility of fixed income portfolios may be greater than the market during periods when the portfolio duration exceeds that of the market.

SPLIT INTEREST ACCOUNT

Objectives

From time to time the Foundation enters into charitable remainder annuity trust agreements with its donors (Split Interest Agreements). It is the Foundation’s practice to invest assets related to the individual trusts into investment accounts designed to generate sufficient income to pay related obligations until termination of the individual trusts. Consequently, this Account’s investment timeline objectives align with expected time frames such trusts will exist.

Investment Allocation

The Split Interest Account’s investment allocation guidelines are as follows:

	<u>Minimum %</u>	<u>Target %</u>	<u>Maximum %</u>
Growth Strategies	50%	55%	60%

Risk Reduction Strategies	30%	35%	40%
Inflation Protection Strategies	5%	10%	15%

Within each asset class, assets will be invested in accordance with the guidelines set out below.

Strategy Descriptions

Growth Strategies: Investments with daily liquidity that seek to provide equity-like, long-term capital appreciation while potentially recognizing substantial fluctuations in year-to-year performance. Examples include equities, higher yielding fixed income instruments and opportunistic strategies. Certain Growth Strategies also feature Risk Reduction characteristics (High Yield, Emerging Markets Debt).

Risk Reduction Strategies: Investments that seek to provide stability and reduce volatility. Examples include investment grade fixed income.

Inflation Protection Strategies: Investments that seek to provide a diversified inflation hedge and yield. Examples include commodities, inflation-sensitive equities, and Treasury Inflation- Protected Securities ("TIPS").

In accordance with the terms of the IMA, the OCIO may be delegated the discretion with respect to the investments utilized by the OCIO to implement the Portfolio's strategy.

ENHANCED LIQUIDITY ACCOUNT

Objectives

These funds are expected to be called by the University or used for Foundation operations within a three-year time frame (e.g., funding of certain University construction projects) but could be needed at any time. The primary objective of the portfolio is liquidity. The secondary objective is income with capital preservation. The portfolio will invest in US government and corporate securities. As such, the process is conservative in nature seeking to provide liquidity on demand without putting undo risk on the primary objective of the portfolio.

Investment Allocation

The key to strong portfolio management is effectively employing approved credits in the most optimal combination of product type and maturity tenor to build a portfolio that not only provides sound liquidity, but also returns an appropriate yield within the confines of very limited risk-taking. To maximize the investment revenues, these funds may be invested in securities or other investment vehicles assuming a level of risk and commensurate return are less than the endowment pool, but more than the short-term cash pool. The level of risk taken should minimize but not eliminate the risk that the value of the investments is less than the original value when the funds are called by the University or needed for Foundation operations.

Portfolio will include investments such as:

- US government securities will carry a maximum final stated maturity of 5 years.

- Corporate securities will carry a maximum final stated maturity of one year.
- Positions are limited to a maximum of 5% per issuer for investments that exceed seven days. Calculations are at the time of purchase and excluding U.S. Government Securities.
- Positions are limited to a maximum of 10% per issuer for investments that mature within seven days. Calculations are at the time of purchase and excluding U.S. Government Securities.

Approved Non-Government asset classes include:

Certificates of Deposit:

- Domestic, Yankee, Euro CDs
- Approved A-1+/P-1 and A-1/P-1 rated banks

Commercial Paper / Corporate Debt:

- Approved A-1+/P-1 and A-1/P-1 Commercial Paper Credits
- Minimum single A S&P rating for Corporate Debt
- No Asset Backed Commercial Paper will be purchased
- No Structured products

Floating Rate Notes:

- Interest rate risk is mitigated by the floating coupon.
- The frequency of reset serves as a useful tool in optimizing yield while defensively positioning against interest rate risk.

HOLDING ACCOUNT

Objectives

The Foundation holds funds that are intended for short-term investment separate from the endowment pool. These funds are expected to be called by the University or used for Foundation operations within a 0–6 month time frame. The primary objective of the portfolio is liquidity. The secondary objective is capital preservation. The portfolio will invest in US government, agency, and corporate securities. As such, the process is conservative in nature seeking to provide liquidity on demand without putting undo risk on the primary objective of the portfolio.

Investment Allocation

To maximize the investment revenues, these funds may be invested in securities or other investment vehicles assuming a level of risk and commensurate return less than the endowment or medium-term cash pools, but more than would be earned if carried as cash. The level of risk taken should eliminate or nearly eliminate the risk that the value of the investments is less than the original value when the funds are called by the University or needed by the Foundation. Portfolio will include investments such as:

- Positions are limited to a maximum of 5% per issuer for investments that exceed 7 days excluding Cash, Money Market Sweep Vehicles and U.S. Government and Agency Securities. Calculations are at the time of purchase.
- Positions are limited to a maximum of 10% per issuer for investments that mature within 7 days and excluding Cash, Money Market Sweep Vehicles and U.S. Government and Agency Securities. Calculations are at the time of purchase.

Approved Asset Classes include Cash and Money Market Sweep Vehicles, US Government and Agency Debt Obligations, Certificates of Deposit, Time Deposits, and Commercial Paper / Corporate Debt. Commercial Paper / Corporate debt must be rated A-1+/P-1 and A-1/P-1 with a minimum investment grade rating by 2 rating agencies.

OTHER INVESTMENTS

From time to time, the Foundation may hold other investments that are not appropriately included in any other category. These investments may include certificates of deposits, gifts of securities intended for immediate liquidation and interests in partnerships, joint ventures or limited liability companies that have been donated to or purchased by the Foundation.

CONTROL PROCEDURES

Review of Assumptions

All major assumptions regarding spending policy, budget projections, capital market returns, and liquidity needs are subject to an annual review by the Committee. This review will focus on the Foundation's ongoing ability to tolerate downturns in asset values, changes to liquidity, income or rate or return objectives, and any changes in the Foundation's priorities or spending policy.

It is not expected the IPS will change frequently. In particular, short-term changes in the financial markets should not require an adjustment to the IPS.

Review of OCIO and Investments

- The Committee will review investment performance at least annually and will seek reports from the OCIO on a periodic basis, focusing on adherence to the IPS and guidelines.
- Material changes in the investment organizations, such as in investment philosophy and personnel, etc.
- Appropriateness of asset allocation and progress toward goals.
- Comparison of long-term investment results to appropriate benchmarks, as well as market index returns.

- a. **Form of Solicitation:** Any and all Foundation gift solicitations shall make clear to prospective donors that (1) the Foundation is a separate legal and tax entity organized for the purpose of encouraging voluntary, private gifts, trusts, and bequests for the benefit of the University; and (2) responsibility for the governance of the Foundation, including the investment of gifts and endowments, resides in the Foundation's Board of Directors.
- b. **Foundation is Primary Donee:** Absent unique circumstances, prospective donors shall be requested to make gifts directly to the Foundation rather than to the University.

2. **Acceptance of Gifts:**

- d. **Acceptance of Gifts of Real Property:** The Foundation shall conduct adequate due diligence on all gifts of real property that it receives. In the absence of any such indication of donor intent, such funds shall be deposited in an University account, and State Board approval will be required prior to the University's transfer of such funds to the Foundation.
- f. The University has gift funds that were originally transferred to the University from the Foundation and the University wishes to return a portion of those funds to the Foundation for reinvestment consistent with the original intent of the gift.

This exception shall not apply to payments by the University to the Foundation for obligations of the University to the Foundation, operating expenses of the Foundation or other costs of the Foundation.
- h. The transfer is of funds raised by the University for scholarship or program support and the funds are deposited with the affiliated foundation for investment and distribution in accordance with the purpose for which the funds were raised.

7. **Separation of Funds:**

All Foundation assets (including bank and investment accounts) shall be held in separate accounts in the name of the Foundation using Foundation's Federal Employer Identification Number. The financial records of the Foundation shall be kept using a separate chart of accounts. No University employee shall receive any payments or other benefits directly from the Foundation.

ARTICLE VI

The Foundation's annual statements will be presented in accordance with standards promulgated by the Financial Accounting Standards Board (FASB). The Foundation is a component unit of the University as defined by the Government Accounting Standards Board (GASB). 2. Dual Representation:

Under no circumstances may an University employee represent both the University and the Foundation in any negotiation, sign for both entities in transactions, or direct any other University employee under their immediate supervision to sign for the related Party in a transaction between the University and the Foundation. This shall not prohibit University employees from drafting transactional documents that are subsequently provided to the Foundation for its independent review, approval and use.

3. Contractual Obligation of University:

The Foundation shall not enter into any contract that would impose a financial or contractual obligation on the University without first obtaining the prior written approval of the University. University approval of any such contract shall comply with policies of the State Board with respect to State Board approval of University contracts.

The Foundation shall not acquire or develop real estate or otherwise build facilities for the University's use without first obtaining approval of the State Board. ARTICLE VIII General Terms

1. **Effective Date:**

This Operating Agreement shall be effective on the date set forth above.

2. **Right to Terminate:**

This Operating Agreement shall terminate upon the mutual written agreement of both Parties. In addition, either Party may, upon 90 days prior written notice to the other, terminate this Operating Agreement, and either Party may terminate this Operating Agreement in the event the other Party defaults in the performance of its obligations and fails to cure the default within 30 days after receiving written notice from the non-defaulting Party specifying the nature of the default. Should the University choose to terminate this Operating Agreement by providing 90 days written notice or in the event of a default by the Foundation that is not cured within the time frame set forth above, the Foundation may require the University to pay, within 180 days of written notice, all debt incurred by the Foundation on the University's behalf including, but not limited to, lease payments, advanced funds, and funds borrowed for specific initiatives. If the staff cannot resolve the dispute, then the dispute will be referred to the Chair of the Board of the Foundation and the University President. If the Foundation Board Chair and University President cannot resolve the dispute, then the dispute will be referred to the Foundation Chair and the State Board for resolution. If they are unable to resolve the dispute, the Parties shall submit the dispute to mediation by an impartial third Party or professional mediator mutually acceptable to the Parties. If and only if all the above mandatory steps are followed in sequence and the dispute remains unresolved, then, in such case, either Party shall have the right to initiate litigation arising from this Operating Agreement. In the event of litigation, the prevailing Party shall be entitled, in addition to any other rights and remedies it may have, to reimbursement for its expenses, including court costs, attorney fees, and other professional expenses.

4. **Dissolution of Foundation:**

Consistent with provisions appearing in the Foundation's Bylaws and Articles of Incorporation, should the Foundation cease to exist or cease to be an Internal Revenue Code §501(c)(3) organization, the Foundation shall transfer to the State Board (or University, as applicable) the balance of all property and assets of the Foundation from any source, after the payment of all debts and obligations of the Foundation, and such property shall be vested in the State Board in trust for the use and benefit of the University.

5. **Board Approval of Operating Agreement:**

Prior to the Parties' execution of this Operating Agreement, an unexecuted copy of this Operating Agreement must be approved by the State Board. 2.04.03 Procedures

- a. **Duty to Disclose.** At the first knowledge of the possibility, creation, or existence of a financial interest as described above, the interested person must disclose to the Board the existence of the financial interest and any and all relevant and material facts known to the interested person about the proposed or existing contract, transaction, or arrangement that might reasonably be construed to be adverse to the Foundation's interest. - c. **Procedures for Addressing the Conflict of Interest.**
 - i. An interested person may make a presentation at the Board or Committee meeting, but after the presentation, he/she shall leave the meeting during the discussion of, and the vote on, the contract, transaction, or arrangement involving the possible conflict of interest.
 - ii. The Chairperson of the Board or Committee shall, if appropriate, appoint a disinterested person or committee to investigate alternatives to the proposed contract, transaction, or arrangement.
 - iii. After exercising due diligence, the Board or Committee shall determine whether the Foundation can obtain with reasonable efforts a more advantageous contract, transaction, or arrangement from a person or entity that would not give rise to a conflict of interest.
 - iv. If a more advantageous contract, transaction, or arrangement is not reasonably possible under circumstances not producing a conflict of interest, the Board or Committee shall determine by a majority vote of the disinterested directors whether the contract, transaction, or arrangement is in the Foundation's best interest, for its own benefit, and whether it is fair and reasonable. In conformity with the above determination it shall make its decision as to whether to enter into the contract, transaction, or arrangement.
 - v. Such contract, transaction, or arrangement shall only be authorized, approved, or ratified upon the affirmative vote of a majority of the directors of the Board then in office, or a majority of the Committee members, who are not interested persons as described above.

Section 2.06 - Records Retention and Document Destruction

2.06.01 Purpose

In accordance with the Sarbanes-Oxley Act, which makes it a crime to alter, cover up, falsify, or destroy any document with the intent of impeding or obstructing any official proceeding, this policy provides for the systematic review, retention, and destruction of documents received or created by the Idaho State University Foundation in connection with the transaction of Foundation business.

This policy covers all records and documents, regardless of physical form, contains guidelines for how long certain documents should be kept, and specifies how records should be destroyed (unless under a legal hold). The policy is designed to ensure compliance with federal and state laws and regulations, to eliminate accidental or innocent destruction of records, and to facilitate the Idaho State University Foundation's operations by promoting efficiency and freeing up valuable storage space.

2.06.02 Document Retention

The Idaho State University Foundation follows the document retention procedures outlined by the Idaho State Board of Education Policies and Procedures for Public Higher Education Records Retention Schedule, Records Management Guide Appendix 9 (available on the Idaho State Board of Education website at <https://boardofed.idaho.gov>.) and IRS Publication 4221 – Compliance Guide for 501(c)(3) Public Charities. The Foundation must keep records that support an item of income or deduction on a return until the statute of limitations for that return runs. The statute of limitations has run when the organization can no longer amend its return and the IRS can no longer assess additional tax. Generally, the statute of limitations runs three years after the date the return is due or filed, whichever is later.

Section 5.01 - Budgeting - Budget Process and Review

The budget process is designed to provide:

- a. A means by which spending limits are set based on expected revenue levels.
- b. A system to allow for procedures to compare actual results to the set spending limits.
- c. A means for setting priorities and allocating resources to those priorities.
- d. A means for comparison of actual financial results to budgeted amounts and analysis of differences from those budgeted amounts.

5.01.01 Preparation of Budget

Prior to the spring Board meeting, the Board Chair, Board Treasurer, Director of Finance and Operations and other Foundation staff as appropriate shall prepare a budget for the next fiscal year.

5.01.02 Approval of Budget

After preparation of the budget for the next fiscal year, copies of the budget, proposals for cost reductions, and proposals for cost increases shall be sent to the Finance Committee. After the Finance Committee makes revisions, if necessary, and approves the budget, it shall be submitted to the Board at their spring in-person meeting. The Board shall approve or reject the budget. If the budget is rejected, the Board shall direct the Board Chair and Board Treasurer to amend the budget for changes as directed by the Board.

5.01.03 Review of Budget

Once the budget has been set for the fiscal year, the budget shall be included in the accounting system of the Foundation. As monthly financial statements are prepared, a comparison of actual monthly results of operations to budget figures shall also be prepared. The financial statements and budget variances (with detailed explanations) shall be reviewed monthly by the Finance Committee and the Executive Committee. The full Board shall also review the most recent year-to-date financial statements and budget variances (with detailed explanations) at each of their respective meetings. When deemed necessary, the Executive Committee may revise the budget to fund additional services or make allowances for other unbudgeted revenues or expenses. Any changes should be discussed at the next scheduled Finance Committee meeting, as well as, full Board meeting.

Section 5.02 - Debt

It is the policy of the Foundation Board that the Foundation will not incur any debt other than for normal accounts payable that is settled out of the current month's cash flow or for normal payments that are to be made to the University that are settled currently. In the extraordinary case where the Board is asked to waive this policy, it will consider doing so only after the following has occurred:

- a. A written request must be made to the Foundation that includes a detailed business case and cash flow analysis that shows how the debt and related interest and all other costs associated with the debt will be paid. In completing the cash flow analysis, only pledges that will be paid within a fixed time frame should then be considered.
- b. The written request must be signed, and the related support approved, by the Chief Financial Officer of the University as well as the University President.
- c. The written request and supporting documents will then be sent to the Finance Committee of the Board for their review. The Finance Committee will then prepare a written report to the Board that outlines the results of their review and recommendation.
- d. Before the request is submitted to the Board, for any proposal involving debt of over \$500,000, the Board Chair and University President will provide written assurance that the State Board of Education has been provided the opportunity to comment on the Foundation's incurrence of debt and all of the State Board's comments will be provided to the Board.
- e. The Board will not meet to discuss and vote on the request until at least two weeks after they have been provided, the report of the Finance Committee and the feedback, if any, from the State Board of Education.
- f. Before the final debt is approved, the Foundation must provide proof of notification to all significant pledge donors that the Foundation is incurring debt in contemplation of their pledge.
- g. The Board must have a second vote to approve the final loan documents.

Notwithstanding the above, this policy does not apply to debt existing at the date of its adoption that was incurred for the construction of the Stephens Performing Arts Center or for any subsequent modification or renewals of that debt.

Section 5.03 - Financial Controls

5.03.01 Accounts

The Idaho State University Foundation shall maintain its checking and other bank accounts in financial institutions that are federally insured. It is not always possible to keep deposits within those insurance limits. However, the Bank should have a credit rating, on long term senior debt, of at least an A3 on Moody's or the equivalent on S&P. All funds received by the Idaho State University Foundation should be deposited promptly and within one week. The Foundation will not issue any credit, debit, or ATM cards. All funds that are not needed for current operations (90 days) shall be invested in accordance with the investment policy established by the Board.

5.03.02 Authority to Sign

All orders of withdrawal, whether by check, wire transfer or any other means, shall first be submitted to the EVP or his/her designee for review. The purpose of this review is not to approve or authorize the transaction, but rather to provide the University with the opportunity to advise the Foundation if the expenditure would be in violation of State Board or University policies or interfere with the University's plans and to submit any concerns to the Board. After the review, the request and appropriate documentation must be approved by the Board Chair, Vice Chair, or Past Chair. Disbursements must bear the signature of one of the following officers:

- i. Board Past Chair
- ii. Board Chair
- iii. Board Treasurer
- iv. Assistant Board Treasurer (who is selected from the Board Members or Emeritus Directors for this purpose).

In addition, the Managing Director, as defined in the Operating Agreement and Services Agreement, shall also be authorized to facilitate investment transactions as long as the transactions have been authorized in writing by the investment Committee and are consistent with the Operating Agreement and Service Agreement, as amended. (See Finance Committee Resolution dated 2.21.23)

- a. The use of a facsimile signature shall be deemed an authorized and acceptable alternative to a personal signature for checks under \$10,000. For checks issued in the amount of \$10,000 and greater the addition of one personal signature from any of the authorized signers as identified in section 5.03.02 a. shall be required.
 - i. The authorized check signer(s) will make disbursements only upon review and approval of the transaction. This will include review for the existence of proper supporting documentation, such as a purchase order and evidence of the receipts of the goods and services as well as the approval of the EXECUTIVE VICE PRESIDENT or, if appropriate, the Board Chair. The EXECUTIVE VICE PRESIDENT or Board Chair's approval can be documented by means of signature or email.

The policies contained in the ISUF Policy manual contain all amendments, if any, made to them through the April 28, 2023 Board of Directors meeting.

Section 5

Finance and Investments

The requirement for proper supporting documentation also includes any disbursements to the University. The Foundation must maintain adequate documentation in its own files to show that the University has met the requirements for any disbursements to it. The supporting documents should also be canceled after the check signer approves.

- b. Any checks payable to any one of the authorized check signers shall be signed by someone other than the payee and all such checks should, along with explanatory comments, be presented by the Foundation's Finance Director to the Audit Committee at their regularly scheduled meetings.

5.03.03 Deposits

All mail should be opened by a person independent of any accounting function and all incoming cash receipts should be logged by that person before providing them to the Foundation's accounting department for processing. The log of daily cash receipts should be kept under the control of the person charged with preparing it and on a monthly basis the Foundation Accounting Manager should ascertain that the amount logged in as received agrees to the amount recorded in the Foundation's accounting system as well as the development system.

5.03.04 Loans

No loan may be made to any officer, director, or employee of the Foundation.

Section 5 Finance and Investments

Section 5.04 - Investments

Investment Policies of the Idaho State University Foundation

5.04.01 Preamble

It is the policy of the Board to treat all assets of the Idaho State University Foundation, including funds that are legally unrestricted, as if held by the Idaho State University Foundation in a fiduciary capacity for the sake of accomplishing its mission and purposes. The following investment objectives and directions are to be judged and understood in light of that overall sense of stewardship. In that regard, the basic investment standards shall be those of a prudent investor as articulated in applicable state laws.

5.04.02 Investment Assets

For purposes of these policies, investment assets are those assets of the Idaho State University Foundation that are managed under Policies of the Investment Committee.

5.04.03 Supervision and Delegation

The Board of the Idaho State University Foundation has adopted these policies and has formed an Investment Committee (the Committee), to whom it has delegated authority to supervise the Idaho State University Foundation investments. The Committee and its counselors will act in accord with this investment policy (hereinafter “policy”), and all applicable laws and state and federal regulations that apply to nonprofit agencies including, but not limited to, the Uniform Prudent Investors Act and the Uniform Management of Institutional Funds Act. The Board reserves to itself the exclusive right to amend or revise these policies.

5.04.04 Investment Committee

See Section 9.05 for a description of the Investment Committee responsibilities.

5.04.05 Investment Consultant, Advisors, and Agents

The committee is specifically authorized to retain one or more investment advisors (advisors), as well as any administrators, custodians, or other investment service providers required for the proper management of the Idaho State University Foundation’s funds. See Section 9.05 for further details.

Section 5

Finance and Investments

5.04.06 Objectives

The Idaho State University Foundation's primary investment objective is to preserve and protect its assets by earning a total return for each category of assets (a "fund"), which is appropriate for each fund's time horizon, distribution requirements, and risk tolerance.

5.04.07 Tax-Based Restrictions

The Idaho State University Foundation is a charitable organization under § 501(c)(3) of the Internal Revenue Code. Consequently, its income is generally exempt from federal and state income tax with the exception of income that constitutes unrelated business taxable income (UBTI). The committee is to determine if a particular strategy or investment will generate UBTI, for which it may rely on advice of counsel. Since UBTI can be generated by leveraged investments (resulting in "debt-financed income"), the Idaho State University Foundation will not utilize margin, short selling, or other leveraged investment strategies unless the Investment Committee grants a specific exception. When granting exceptions, the Committee must determine that the potential rewards outweigh the incremental risks and costs of UBTI. All such exceptions shall be made in writing and shall be communicated to the Board as part of the next regular Investment Committee report.

5.04.08 Reporting Requirements

Monthly — The Committee Chair will have the option to obtain written monthly custodial statements. Such statements should contain all pertinent transaction details for each account that holds all or a portion of any of the Idaho State University Foundation investment funds. Each monthly statement should include:

- a. The name and quantity of each security purchased or sold, with the price and transaction date; and,
- b. A description of each security holding as of month-end, including its percentage of the total portfolio, purchase date, quantity, average cost basis, current market value, unrealized gain or loss, and indicated annual income (yield) at market.
- c. In addition, if not included in the custodial reports, the consultant and/or the investment advisor(s) should provide a report for each fund or portfolio showing the month-end allocation of assets between equities, fixed-income securities, and cash. The monthly review of custodial statements may be delegated to the Idaho State University Foundation accounting staff.

Section 5

Finance and Investments

Quarterly — The Committee should obtain from its investment consultant and/or investment advisors, a detailed review of the Idaho State University Foundation's investment performance for the preceding quarter and for longer trailing periods as appropriate. Such reports should be provided as to each fund and as to the Idaho State University Foundation investment assets in the aggregate. As to each fund, the committee should establish with its investment consultant and/or investment advisors the specific criteria for monitoring each fund's performance including the index or blend of indices that are appropriate for the objectives of each fund and for the investment style or asset class of each portfolio within a fund. The Committee shall meet with the consultant to conduct such reviews to the extent it deems necessary.

Periodically — The Committee should meet with its investment consultant at least annually to review all aspects of the Idaho State University Foundation's investment assets. Such a review should include:

- a. Strategic asset allocation,
- b. Manager and investment entity performance,
- c. Investment management expenses,
- d. Anticipated additions to or withdrawals from funds,
- e. Future investment strategies,
- f. Any other matters of interest to the committee.

Section 5 Finance and Investments

Section 5.05 - Endowments and Endowment Spending

Endowments and Spending Policies

5.05.01 Endowments

An endowment is established with a gift from the private sector, which comprises the corpus or principal of the endowment. The corpus is invested, and the income or the capital gain is used to fund a project or need. The corpus remains intact in perpetuity, thereby continuing to generate funds to be used by the institution. Endowments are divided into the following three categories:

- a. Permanent endowments
 - i. Permanent endowments are sometimes referred to as "true" or "pure" endowments and are assets designated by the donor to be held in perpetuity. The corpus of these endowments may never be spent. Earnings and capital gains must be expended in accordance with the terms and conditions established by the donor. However, it must be recognized that the corpus may decline during unfavorable market conditions.

- b. Term endowments
 - i. Term endowments are established when the donor specifies that the endowment shall terminate following a particular date or event and that the corpus of the endowment may be expended in accordance with the terms and conditions specified by the donor. Until the passage of the specific date or event, term endowments operate in a manner similar to permanent endowments with expenditures made in accordance with the conditions established by the donor.

- c. Quasi-endowments
 - i. The University Administration may, with permission of the State Board of Education, set aside certain institutional funds and provide to the Foundation to be maintained as endowments and will specify the use of the assets and spendable income, and set other terms and conditions relating to the fund. The University Administration may change the terms and conditions of the endowment or terminate the endowment.

5.05.02 Gifts to Establish Endowments

A written donative instrument should be provided for each new endowment fund established. This instrument would provide:

- a. A statement providing that additions to the endowment from any other person or entity, unless prohibited, are made subject to the provisions of the donative instrument, and

Section 5

Finance and Investments

- b. A statement that if, in the opinion of the Board of Directors of the Foundation, future circumstances change so that the purposes for which the endowment is established become illegal, impractical or no longer able to be carried out to meet the needs of Idaho State University or its Foundation, the Foundation Board may designate an alternative use for the endowment payout to further the objectives and purposes of Idaho State University, giving consideration to the donor's special interest as evidence by the original purpose of the endowment.

In cases where an endowment is established pursuant to a solicitation letter or document sent to the donor or donors that may be used as the instrument to evidence the donor intent and purposes.

The Idaho State Board of Education and Idaho State University reserves the right to establish the amount required for a permanent endowment for the naming of a college, department or other unit or academic position (i.e. chairs, professorships, lectureships, and fellowships). Accordingly, in no case will the Foundation accept an endowment for the naming of a college, department or other unit or academic position to be established without prior approval of the President of the University or his designee.

All endowments are subject to a Board established annual management fee which is currently 1 ½ percent. This fee is to be reviewed annually as part of the budget process.

5.05.03 Fiduciary Responsibility

The Board of Directors of the Idaho State University Foundation has a fiduciary responsibility to comply with the restrictions imposed by the donors of endowment funds. The Directors also have a legal responsibility to ensure that the management of endowment funds is in compliance with all laws and regulations.

The primary and constant standard for making investment decisions for endowment is the "Prudent Person Rule" which states that the investment manager may trade and retain investments... "that standard of judgment and care that prudent investors, exercising reasonable care, skill, and caution, would acquire or retain in light of the purposes, terms, distribution requirements, and other circumstances of the fund then prevailing, taking into consideration the investment of all the assets of the fund rather than a single investment."

Section 5

Finance and Investments

5.05.04 Donor direction of Investment Policy

Without specific approval of the Foundation Board, no endowment shall be accepted in which the donor directs the investment transactions or holdings or may approve investment policy or strategy. The endowment fund shall be under the sole control of the Board of Directors of the Foundation acting through the Investment Committee pursuant to its Investment Policies. Furthermore, it is the specific and strong preference of the Foundation's Board of Directors that all endowment gifts are eligible for commingling for investment purposes with other endowment funds. This commingling permits enhancement of long-term investment programs, affords appropriate risk control through diversification, and provides for optimization of asset mix through time.

5.05.05 Relative Fair Value of Endowments

The value of each commingled endowment fund shall be calculated based upon its relative market value to the total market value of the endowment. Income under the policy statement's spending policy should be calculated on its relative portion of the applicable investment portfolio.

5.05.06 Distribution Policy for Endowments

The Idaho State University Foundation Board of Directors recognizes the need for spendable income by the beneficiaries of the endowment funds under their custodianship. The following distribution policy reflects an objective to distribute as much total return as is consistent with the Foundation's overall investment objectives, defined in its investment policies. The policy also outlines the methods used in making the distribution and in establishing the distribution rate:

- a. An endowment should be excluded from the target distribution until the endowment has been established for one year.
- b. If the donor has specifically stated, in the gift instrument, the amount and timing of disbursements to be appropriated from a particular endowment, the donor intent will be honored.
- c. In most cases the gift instrument is either silent or leaves it to the Foundation to determine an appropriate distribution rate. In such circumstances the Idaho enacted Uniform Prudent Management of Institutional Funds Act (UPMIFA) directs that the following factors, if relevant, be considered:
 - i. The duration and preservation of the endowment fund;
 - ii. The purposes of the institution and the endowment fund;
 - iii. General economic conditions;

Section 5

Finance and Investments

- iv. The possible effect of inflation or deflation;
 - v. The expected total return from income and the appreciation of investments;
 - vi. Other resources of the institution; and
 - vii. The investment policies of the institution.
- d. Each fall the Finance Committee, will consult with University Officials, the Investment Committee and others that it deems necessary, to appropriately consider the factors specified by UPMIFA. The Finance Committee will report to the Board, during its fall meeting, the results of their review and consultations. This report will also recommend an annual distribution rate. The distribution rate, for the upcoming fiscal year, will then be decided by the Board at that fall meeting.
- e. It is expected that the distribution rate approved by the Board will be between 3 to 6 percent of the average fair market value of the individual endowment for the preceding 12 quarters.
- f. Distributions shall be made monthly by removing the amount from the endowment to the restricted expendable classification, as soon as practicable, after the last calendar day of each month. This distribution amount shall be recalculated each year based on a 12-quarter rolling average of the fair market value of an endowment multiplied by the approved distribution rate.
- g. From time to time, application of this policy may result in the fair market value of assets associated with individual endowment funds to fall below the historical contribution value. While this is acceptable under UPMIFA, it may be prudent to curtail distributions from those endowments in certain circumstances.
- i. An endowment's fair market value falls below the historical contribution value by more than 10 percent but less than 20 percent
 Remediation - the distribution rate should be 2 percent until such time as the fair market value equals or exceeds the historical contribution value.
 - ii. The fair market value falls below the historical contribution value by 20 percent or more
 Remediation - distributions will be suspended until such time as the fair market value equals or exceeds the historical contribution value.

Section 5

Finance and Investments

- iii. To ensure good donor relations no curtailment should occur on endowments of more than \$100,000 without a discussion with the donor, or their representative. This discussion is under the direction of the Executive Vice President of the Board of Directors. In the absence of a donor or representative the above curtailment distribution formulas shall be followed. If, as a result of the discussion, a new agreement is reached with the donor or their representative, it should be documented as an addendum to the gift instrument. Accordingly, this policy encourages such discussion on a curtailment of any endowment which has a historical contribution value of over \$100,000.

Section 5.06 - Gift Assessment

This policy has been jointly adopted by Idaho State University and the Idaho State University Foundation.

5.06.01 Policy

The assessment fee will be applied according to the following guidelines:

- a. This assessment applies to all cash gifts without exception. An assessment will be levied on all gifts received by Idaho State University or the Idaho State University Foundation. The amount of this assessment will be established each spring by the University and the Foundation in conjunction with the annual budget process. However, in order to avoid donor confusion, changes should be very rare. This assessment applies to all cash gifts, except as provided in Section 5.06.01 e, without exception. It will not apply to grants from state and federal governments or to contracts.
- b. Non-cash gifts (gifts in kind) will not be subject to the fee.
- c. Donors will receive credit for the full amount of their gifts.
- d. Charitable trusts and bequests (all planned gifts) will be assessed at the time they are realized.
- e. In cases where the donor (individual, corporate or foundation) refuses to contribute to indirect costs, the unit receiving the gift will have the option of paying the appropriate fee from other departmental sources.
- f. Outside scholarship gifts following specific students and sent directly to the scholarship office will not be assessed.

Section 6.02 - Donor Relations

The Donor Bill of Rights was created by the Giving Institute: Leading Consultants to Non-Profits [formerly known as the American Association of Fund Raising Counsel (AAFRC)], Association for Healthcare Philanthropy (AHP), the Association of Fundraising Professionals (AFP), and the Council for Advancement and Support of Education (CASE). It has been endorsed by numerous other nonprofit associations, and many charities incorporate it into their operating policies and procedures. The Idaho State University Foundation's Board of Directors has adopted the Bill of Rights as its policy.

THE DONOR BILL OF RIGHTS

Philanthropy is based on voluntary action for the common good. It is a tradition of giving and sharing that is primary to the quality of life. To ensure that philanthropy merits the respect and trust of the general public, and that donors and prospective donors can have full confidence in the nonprofit organizations and causes they are asked to support, we declare that all donors have these rights:

1. To be informed of the organization's mission, of the way the organization intends to use donated resources, and of its capacity to use donations effectively for their intended purposes
2. To be informed of the identity of those serving on the organization's governing board, and to expect the board to exercise prudent judgment in its stewardship responsibilities
3. To have access to the organization's most recent financial statements
4. To be assured their gifts will be used for the purposes for which they were given
5. To receive appropriate acknowledgement and recognition
6. To be assured that information about their donation is handled with respect and with confidentiality to the extent provided by law
7. To expect that all relationships with individuals representing organizations of interest to the donor will be professional in nature
8. To be informed whether those seeking donations are volunteers, employees of the organization, or hired solicitors
9. To have the opportunity for their names to be deleted from mailing lists that an organization may intend to share
10. To feel free to ask questions when making a donation and to receive prompt, truthful, and forthright answers

Section 6 Fundraising

Section 6.03 - Gift Acceptance

6.03.01 Introduction

The purpose of this gift acceptance policy is to give guidance and counsel to those individuals within the Idaho State University Foundation concerned with planning, promotion, solicitation, receipt, acceptance, management, reporting, use, and disposition of gifts.

These policies must be viewed as flexible and realistic in order to accommodate unpredictable situations as well as donor expectations, as long as such situations and expectations are consistent with the Idaho State University Foundation's mission and policies. Flexibility must be maintained since some gift situations will be complex, and proper decisions can be made only after careful consideration of all related factors. These policies may, therefore, require that the merits of a particular gift be considered by the appropriate staff and/or committee of the Board along with legal counsel and the full Board if necessary.

All fundraising activities and gift acceptance policies, and their day-to-day implementation, are designed and managed by the Chair, Executive Vice President and the Executive Director of Development in conjunction with the appropriate staff, and are subject to approval by the Board.

The Board, through the Development Committee and the Board Chair, is responsible for the gift acceptance policy. This responsibility cannot be delegated or waived.

6.03.02 Gift Acceptance Policy

- a. Unrestricted, outright gifts of cash, check, credit card, and publicly traded securities do not require approval.
Unrestricted gifts shall be encouraged unless:
 - i. The donor indicates that he or she is only willing to make a restricted gift or,
 - ii. The option of a restricted gift will otherwise significantly increase the chances of obtaining a gift from the donor.
- b. In drafting instruments for the gift of restricted funds to the Idaho State University Foundation, or to any of its affiliated organizations, donors and their advisors shall be encouraged to use language that would permit application of the gift to a more general purpose if, in the opinion of the board, the designated purpose is no longer feasible.
- c. All receipts from unrestricted bequests, annuities, charitable remainder trusts, or charitable lead trusts shall be deposited in an unrestricted account within the general endowment, unless the Executive Committee determines a particular

Section 6 Fundraising

unrestricted gift of the type enumerated in this paragraph should be deposited in a different account.

- d. Gifts will only be accepted where there is charitable intent on the part of the donor. The Idaho State University Foundation is unable to accept gifts that are overly restrictive in purpose. The most desirable gifts are those with the least restrictions, as unrestricted funds allow the Foundation and University to address its most pressing needs. Unless the Board grants a specific exception, the Idaho State University Foundation will not accept any gifts that:
 - i. Contain a condition that requires any action on the part of the organization that is unacceptable to the Foundation, University Administration or the State Board of Education,
 - ii. Contain a condition that the proceeds will be spent by the organization for the personal benefit of a named individual or individuals,

Exceptions to this guideline can be made when the value of the property exceeds the anticipated exposure, or will produce income, or will be used by the Idaho State University Foundation or the University in its programs but only after all tax considerations have been fully explored and documented. Section 6.04 - Acceptance of Real Estate Gifts

6.04.01 Introduction

The Foundation may accept gifts of real estate, both improved and unimproved, in accordance with the guidelines outlined in this Policy. Unless specific Board approval is required by the guideline, deviations from these guidelines may be authorized by the Board Past Chair and/or the Board Chair with notification of the deviations given to the Executive Committee and the full Board at their next regularly scheduled meetings. In addition to the guidelines contained in this policy, the State Board of Education may from time to time make rules and regulations governing the acceptance or utilization of real estate. It shall be the responsibility of the Executive Director of Development to ascertain that all such policies and rules are adhered to before the acceptance of any gift of real estate. Rules or policies of the State Board of Education may not be waived except by the State Board of Education.

Generally, the Foundation will attempt to sell any property received as a gift at a reasonable price, as reflected by the current market as soon as possible and normally within two years. However, all gifts of property will be reviewed on a case-by-case basis and may be considered for longer retention if market conditions warrant it or if the University might have a future use of the property. The Managing Director shall present, in writing, a description of all real estate held by the Foundation and a summary of its current disposition at each regularly scheduled Board Meeting.

6.04.02 Guidelines

- a. The Foundation may require the following information in order to consider acceptance of a gift of real property:
 - i. An American Land Title Association (ALTA) insurance commitment showing marketable title in the donor, free and clear of unacceptable encumbrances, issued by a reputable title insurance company;
 - ii. An appraisal, prepared in accordance with standards established by the Appraisal Institute, by a qualified appraiser;
 - iii. A phase one environmental audit by a qualified engineer indicating that ownership will not expose the Foundation to environmental liabilities;
 - iv. At the election of the Foundation, a market feasibility study for the property;
 - v. ALTA survey of the property by a registered land surveyor;
 - vi. Evidence of compliance with the Americans with Disabilities Act (when applicable);
 - vii. A structural engineering report (when applicable);
 - viii. A review of leases (for income producing property);
 - ix. A disclosure statement for residential property (when applicable);

- x. A radon report (when applicable) issued by a qualified engineer;
 - xi. A transfer of all mineral and water rights.
- b. Real estate encumbered by a mortgage or other indebtedness cannot normally be accepted as a gift unless the donor agrees to assume all carrying costs until the property is liquidated. Exceptions to this guideline can be made when the value of the property exceeds the anticipated exposure, or will produce income, or will be used by the Idaho State University Foundation or the University in its programs but only after all tax considerations have been fully explored and documented. All such exceptions must also have the approval of the Board and if material notification must be given to the State Board of Education.
- c. Real estate gifts that will entail the Foundation operating a business cannot be accepted without Board approval and, if material, notification provided to the State Board of Education.
- d. Current State Board of Education policies clearly require that: “Foundation controlled resources may not be used to acquire or develop real estate or to construct facilities for the University’s use without prior State Board approval. If determined in its best interests, the University will submit any proposal to use resources in the manner described herein to the State Board in accordance with State Board policies and procedures, and when appropriate, to the Idaho Legislature.”
- e. Gifts of real estate are also subject to all applicable provisions of Section 6.03 Gift Acceptance especially in regards to valuation, tax and legal matters and processes.

Section 6.05 - Naming Opportunities and Donor Recognition

6.05.01 Introduction

The Idaho State University Foundation seeks to recognize the generosity and commitment of individuals, corporations, foundations, trusts and other organizations that support the mission of the University. The proper recognition of donors for their support of the University is important in the advancement process. Effective donor recognition can encourage additional gifts and prompt others to contribute. In addition to the Foundation, donor recognition activities are the responsibility of numerous Departments and Colleges of the University. The Foundation Board is only authorized to establish policies for activities conducted by Foundation staff or funded by Foundation resources.

While the Foundation is not responsible for the policy governing the naming of University facilities, programs or positions, the Board has been asked by University officials, from time to time, to provide suggested guidance. This policy outlines those suggestions.

6.05.02 Naming Opportunities Suggestions

General Guidelines

- d. Due to the sensitive nature of naming major facilities or programs for donors, we believe that any proposal to a potential donor that includes a naming opportunity should be cleared by the Vice President of Advancement of the University before it is presented to the donor. The Vice President of Advancement should be satisfied that the naming meets University standards and will be approved by the University naming committee as well as by the State Board of Education.
- e. No naming should be approved or (once approved) continued that will call into serious question the public respect of the University. Individuals and organizations whose names are approved should be expected to exemplify the attributes of integrity and civic leadership. Should a donor, for whom a university naming opportunity has been made, violate these standards, the University should consider removing the donor's name from the naming opportunity. All contracts for naming should have specific provisions that deal with any such issues.
- f. No names should be approved that will imply the University's endorsement of a partisan political or ideological position. This does not preclude a naming with the name of an individual who has at one time held public office or with the name of an individual or a company that manufactures or distributes commercial products.
- g. When named recognition has been extended for a gift received, it should be honored for the life of the contract. The contract should include all the terms and conditions, including the process to be followed in the event of changed circumstances. This is especially important for contracts that are anticipated to provide naming in perpetuity.

The policies contained in the ISUF Policy manual contain all amendments, if any, made to them through the October 21, 2022 Board of Director's meeting.

Section 6 Fundraising

- h. Certain naming opportunities lend themselves to short term yearly payment sponsorships and they should be considered. Provided there are no contract violations the University should honor the name for that period of time, subject to renewal of the opportunity.
- i. The method of payment for a naming opportunity should be carefully matched to the type of activity or facility being funded. Donations associated with naming proposals can be made by the donor in cash or appreciated property, through legally binding pledges fulfilled within no more than five years, or by the creation of an endowment. Individual donors may gift a portion of their contribution through an irrevocable trust or a contractual bequest mechanism. The University should contractually reserve the right to remove the naming opportunity when pledges are suspended or remain.
- j. Donations made through irrevocable deferred gift techniques (including, but not limited to charitable gift annuities, deferred pledge agreements, or wills) should generally not be accepted in instances when private funds are needed to pay for current building projects or other activities and accordingly the donor should be presented with other opportunities. A naming opportunity may, however, be accepted for existing, unnamed opportunities not requiring major remodeling or renovation.

6.05.03 Negotiating Named Recognition for Philanthropic Donations

- a. It should be the responsibility of individuals negotiating on behalf of the University to consult with the Vice President of Advancement when gifts involve a proposal to name.
- b. It should be the responsibility of individuals negotiating on behalf of the University to advise potential donors that the acceptance of any philanthropic donation involving a proposal to name is conditional upon final approval of the naming by whatever process the University and/or the State Board of Education requires.
- c. In negotiating with donors, deans/directors and development officers should ensure that donors understand that even when a physical space or fund will be named for them, they do not control the details of the administration and application of gift details including construction, furnishings, the selection of candidates, how the facility will be utilized, etc.
- d. All name recognition should have a legal contract clearly stating the length of the naming and all other items such as terms of payment and recognition.

6.05.04 Naming of Physical Facilities

We recommend that a building or physical facility only be named for a donor in cases where the donor's gift provides at least fifty (50%) percent of the total cost of construction that is raised through private donations or \$1 Million, whichever is greater. In special cases an amount higher than \$1 Million might be established because of the visibility, cost or importance of the building. It is critical that the estimated cost of the construction be carefully developed with appropriate inflation factors and contingencies considered and that the estimate be carefully

The policies contained in the ISUF Policy manual contain all amendments, if any, made to them through the October 21, 2022 Board of Director's meeting.

Section 6 Fundraising

reviewed by someone independent of the estimate's preparation. Naming opportunities should be carefully developed for the individual components of the building in order to raise the remaining fifty (50%) percent of the total cost.

6.05.05 Removal or Change of Name

The University should retain the right, in consultation with the donor, to change the name of a building, space, facility or endowment if, for example, a corporate donor has itself changed its name, or marital donors have divorced or separated. The naming contract should specify details for this procedure including terms for the rename and re-brand process as well as who will cover the costs.

6.05.06 Portions of Existing Facilities

Existing un-named parts of buildings or facilities might be named for donors in cases where substantial gifts are made by donors to endowments or programs carried on within these facilities.

6.05.07 Renovations

In cases of major renovation that extend throughout a building or facility that has not been previously named for someone, the facility might be named for the donor, provided the donor's gift covers at least fifty (50%) percent of the renovation cost. No change should be made to the name of a building if it is named for a previous donor without that donors' consent, unless it can be changed by terms of the donor agreement.

6.05.08 Named Laboratories, Classrooms and Lounges

While no exact dollar amount can be proposed, the University should carefully consider developing naming opportunities in existing buildings based upon their visibility, importance, or cost. All such naming opportunities should be reviewed by the Vice President of Development to ensure consistency of methodology and reasonableness.

6.05.09 Other Features

Donor names proposed for fountains, ornamental buildings, landscaping, trees, benches and similar features should normally require a gift to cover the full cost of the project and a maintenance fund.

6.05.10 General Policy on Endowed Funds

An endowment fund may be contributed and named for an individual or organization donor, or a specific honoree, to provide a permanent source of

Section 6 Fundraising

funding for restricted or unrestricted purposes as specified by the donor. Record keeping for an endowment can be complicated and costly to the Foundation and, accordingly, the minimum amount to establish an endowment should be \$10,000 or greater. A donor may be allowed up to three years to complete the \$10,000 gift. Amounts donated during the period of time to achieve the \$10,000 endowment will receive a proportionate share of the investment income allocation. However, no expenditure will be made from the endowment until the full \$10,000 is received. At the time that \$10,000 has been donated, the endowment will be subject to the Foundation's normal endowment spending policies. If, at the end of three years, the full \$10,000 gift is not completed, any amounts donated plus investment income should become unrestricted assets of the Foundation.

In addition, a program or department should not be named for a donor unless the donor's gift makes a substantial impact on the scope and quality of the program or department being named.

6.05.11 Chair Endowment

The amount needed to fully fund a Chair will usually vary from department to department or from college to college. The expendable income from a Chair endowment (determined in accordance with the University's policy on endowment income and expenditures) should be sufficient to pay the appointee's full initial term and prospective reappointment salary and benefits. In addition, whenever possible, the amount should also include an expense allowance for general secretarial, research, and research and appointment-related travel costs.

6.05.12 Named Professorship Endowments

The amount needed to fund a named professorship will also usually vary. The expendable income from a Named Professorship endowment (determined in accordance with the University's policy on endowment income and expenditures) should be sufficient to pay at least one-half of the appointee's initial term and prospective reappointment full salary and benefits. In addition, whenever possible, the amount should also include a contribution to an expense allowance for general secretarial, research, and research and appointment-related travel costs.

6.05.13 Naming when no donor gift is involved

The naming of the University's facilities and programs is a valuable tool to recognize significant philanthropy and we believe that naming items, without an appropriate donation, should be an unusual occurrence. In the rare instance, when no donor gift is involved we recommend the following:

The policies contained in the ISUF Policy manual contain all amendments, if any, made to them through the October 21, 2022 Board of Director's meeting.

Section 6 Fundraising

- a. It should honor a person who has achieved unique distinction in higher education and other significant areas of public service, or who has served Idaho State University in an academic capacity and has earned a national or international reputation as a scholar, or has made extraordinary contributions to Idaho State University in an extraordinary manner that warrants special recognition, or who has served Idaho State University in an administrative capacity and who, during administrative service, made extraordinary contributions to Idaho State University which warrant special recognition. The extraordinary service should be recognized as such throughout the State of Idaho and such service should be recognized by the University's many constituents.
- b. When a proposal for naming in honor of an individual involves service to the University in an academic or administrative capacity, a proposal shall not be made until the individual has been retired or deceased for at least five years.
- c. No more than one facility or property at the University should be named after any one individual unless they are donors.
- d. No facility or property should be named after seated, elected or appointed officials.

6.05.14 Donor Recognition Policy

Policies governing the routine providing of tax receipts to donors and other acknowledgements are covered in other Fundraising policies and are not repeated here. This section deals with those donor recognition activities that are not clerical in nature.

The donors to our Foundation have made substantial sacrifices in providing the Funds that have helped advance the University in many ways. Those donors have a right to be properly acknowledged and the Foundation has a moral obligation to do so. In addition, a systematic program of acknowledging the philanthropic support of our donors has the potential of enhancing the generosity of alumni and friends of the University. In this context, all members of the University share in the obligation to properly recognize our donors. The following practices will serve to enhance donor recognition activities:

- a. It is the responsibility of the Development Officers to work with their Schools/College and units to make sure that our donors are thanked through letters and/or telephone calls from administrators, faculty, students, fellow alumni and others. The receipt of grants, scholarships and other financial assistance should be contingent on receiving the cooperation of the recipient in providing donor recognition, whenever possible. Cooperation should also be a factor to consider in awarding discretionary renewals or other grants or assistance. Development Officers should make sure that major donors are thanked through stories in newsletters and other publications that focus on the difference that the Donors have made. Whenever possible donors should be hosted on campus or at other events and activities, as appropriate, in order for

Section 6

Fundraising

them to see the positive difference their contributions have made. Of course, donors' wishes as to anonymity and privacy must be respected.

- b. It is the responsibility of the Development Officers to work with their Schools/College and units to make sure that they are taking care to avoid providing quid pro quo premiums to donors. The Internal Revenue Service has specific guidelines limiting the practice of providing donors with "gifts" or "premiums" in return for a charitable contribution. Accordingly, the Development Officers should obtain clearance from the Executive Vice President or the Executive Director of Development prior to the initiation of such practices.
- c. The Board believes that in order to avoid embarrassment and duplication of effort all donor recognition activities and events should be carefully coordinated whether they are conducted by the University's Alumni Association, the University's Athletic Department or individual Schools/College or other units. It is therefore the policy of the Foundation Board that all Development Officers coordinate all donor recognition with the University Advancement office and, to the extent that the other departments such as alumni and athletics are willing, work closely with them to make sure that all recognitions are particularly meaningful to the donor.
- d. Often donors are engaged with multiple areas of the University and a specific unit's stewardship may have an impact on another unit's relationship with the donor. The Foundation's Development Officers are charged with knowing their donors and potentials donors and if other units in the University have or plan on having relationships with that Donor, all contacts should be carefully coordinated with the other unit's Development Officer even though the other Development Officer maybe working for the University's Athletic or other department that is not directly associated with the Foundation. The Foundation's Development Officers are charged with developing an appropriate method of recognizing the donor that is best for the University and that donor even though it may not be best for a particular department. (This philosophy should govern all our relationships with Donors.) In the unlikely event that the Development Officers cannot develop a mutually satisfactory approach, the case should be referred to the Associate Vice President for Development for matters within the Foundation or to the Vice President for Advancement for matters dealing with other University departments for resolution.
- e. While donor recognition and donor cultivation activity may require the incurrence of legitimate expenses, good stewardship requires that all expenses of the Foundation are carefully controlled and are not excessive. Excessive expenditures for donor recognition can also be counterproductive in that donors may believe that they are an indication that their donations are being wasted. Experience has shown that some of the means to honor donors, that are most appreciated by the donors, require little or no expenditures of funds. Accordingly, Foundation funds should only be expended for reasonable expenses in accordance with Foundation and University policies, and should not be used for expenses that are lavish or excessive. Proposed budgets for all donor recognition and cultivation expenditures including travel, gifts, plaques, banquets, Board dinner and other events should be prepared annually and discussed with the Development
