

CPI End of Semester Reflection

1. Describe a specific project or task you completed during your internship. How did it relate to your academic studies or future career goals, and what skills did you develop or strengthen through this experience?
2. Reflect on a challenge you faced during your internship. How did you approach it, and what did you learn about problem-solving, communication, or adaptability as a result?
3. How has this internship influenced your understanding of your field of study or potential career path? Has it confirmed your interest, sparked new interests, or changed your perspective in any way?
4. Think about the mentorship or guidance you received during your internship. What did you learn from your supervisor or colleagues that you will carry forward into future roles or academic work?
5. What was the most meaningful or impactful part of your internship experience through the CPI Program, and how do you plan to apply what you learned to your next academic or professional endeavor?
