

# Igniting the Curiosity and Imagination of Students in Secondary Education

## Course Syllabus

### Course Description

The purpose of this professional development course is to discover the importance of curiosity and inquiry-based learning and explore intelligence theory, divergent thinking, and creativity. Educators are the inventors of the classroom environment. Promoting and encouraging questions, and testing assumptions, allows students to take a risk in their learning. Risk-taking helps students to be more adaptable and resilient in the face of change, as life is full of surprises. Out of the Box Teaching strategies for classroom application will inspire and challenge how we think about education.

### Course Objectives

At the end of this course you should be able to:

1. Identify the role of Curiosity in motivating learning and acquiring knowledge.
2. Identify the key components of Inquiry-based Learning and how it spurs Curiosity.
3. Identify the relationship between Imagination, Creativity, and Curiosity.
4. Identify the different views of Intelligence and the Relationship with Curiosity and Creativity.
5. Identify the Relationship Between Divergent Thinking, Convergent Thinking, and Creativity.
6. Identify the techniques for incorporating Out-of-the-Box Teaching in the classroom.
